Ningbo Electric & Pneumatic, a manufacturer in China, specializing in electric goods & crane parts
Pushbutton switch, circuit breaker, meters, voltage regulator, Industrial plugs, Lamps...
Crane Pendant Pushbutton, Battery Connectors, Contacts, Electric Hoist...

The XAC Crane Pendant Control Stations (Crane Control Pushbutton Switches)---
Made by Ningbo Electric Pneumatic:

The Italy G.G. Pushbutton (P03.1)--
Made by Ningbo Electric Pneumatic:

Pendant Stations

XAC Medium Duty Pendant Stations

Telemecanique XAC pendant stations for medium or heavy duty applications are available as standard preassembled units, empty enclosures for you to populate, or factory modified (5 day lead time) to meet your specifications. XAC pendant control stations are specifically designed for lifting and handling applications. They enable direct control of motors and can be used for direct motor switching. Made of high impact thermoplastic, XAC pendant stations are double insulated to help protect against electric shock.

[Pendant Stations](#)

- UL listed, CSA approved, carries CE marking
- Shock and corrosion resistant
- NEMA 4, 4X, 5
- 1 and 2 speed models
- Double insulated
- [CE Declaration of Conformity](#)

Type SKYP Heavy Duty Pendant Stations

The newly redesigned Square D, type SKYP series B pendant station are built to withstand the abuse of heavy duty applications. Made of high impact polycarbonate material, the type SKYP series B are the strongest and most ergonomic pendant control stations we have ever built.

- All SKYP series B pendant enclosures are rated NEMA 1, 3, 4, 4X and 13 water-tight, dust-tight, oil-tight and corrosion resistant
- No protective boots required
- Rounded ergonomic enclosure style is easy to grip and provides more internal wiring space
- UL listed, CSA approved, carries CE marking
- Meets UL 94-5V flammability rating
- Lifetime enclosure warranty

Type BW Standard Duty Pendant Stations

The Square D type BW pendant station is a pre-assembled, 2 button station well suited for standard hoist applications. Oversized finger grips on the rear of the enclosure make it easy to grip and operate.

- Made of high impact thermoplastic with self-extinguishing flammability rating (UL 94V-O)
- NEMA 1, 3, 3R, 4, 4X and 13 water-tight, dust-tight, oil-tight and corrosion resistant
- UL listed, CSA approved, carries CE marking

Harmony XAC-A

Simple, assured operator pendant controls

Pendant control stations for auxiliary circuits, equipped with 2 to 12 ϕ 22 mm buttons

Description

Functions: 1 or 2 speed up, down, right, and left movements; emergency stop option available

Compliance with IEC standards

CE marking

UL/CSA certification

IP 65

Double insulated polypropylene casing

Screw clamp connection

Complete products

Products for customer assembly using separate parts and common accessories

Benefits

Designed for mechanical handling, these highly robust pendant control stations comply with the safety requirements of IEC standards. They are not only **simple** and intuitive, but also very comfortable for the operator to use.

Applications

- Industry and service sector: hoists, travelling cranes
